PRIVACY
STATEMENT

The Information Practices Act of 1977 (Civil Code 1798 et. seq.) requires that the following details be provided when a form is used to obtain information from individuals. The data requested in this form are required by the Genetic Disease Branch (GDB) of the California Department of Health Services and are mandated by C.C.R. 17 Section 6532. These data are used to provide information to subjects on the prevention of birth defects, to determine prevalence of chromosomal and neural tube defects and to monitor trends of occurrence. They will also be used to determine the effectiveness of the California Expanded Alpha Fetoprotein Screening Program. It is mandatory that health professionals completing this form provide complete and accurate information. The records maintained by the GDB are confidential as defined in Civil Code 1798.34 and are exempt from access by any individual except licensed medical personnel designated by the subject. The information may also be used in special studies as defined in Health and Safety Code 100330. The furnishing of such information to the Department or its authorized representative, or any other cooperating individual, agency or organization in any such special study shall not subject any person, hospital or other organization furnishing such information to any actions or damages.
